Community and contribution

In case you have any questions or just simply want to chat with other muCommander users, please join the community on our Gitter channel.

If you would like to help improve muCommander, please join the development on GitHub. There are many ways how you can help, other than writing code. Report bugs, suggest new features, answer questions, write documentation, create video tutorials or translate the user interface. Are you a happy user? Please consider making a donation.

Thank you for using muCommander!
